Necktie Onesie Instructions

1. Cut out pattern piece for desired size onesie. Cut the pattern into two pieces between the "knot" and the "tie."

2. Trace pattern onto fabric. The "knot" should be at an opposite angle on the fabric from the "tie" to create the knot effect. Cut out fabric pieces.

3. Use Wonder-Under to fuse fabric to onesie. Follow the directions that come with the Wonder-Under to fuse the two fabrics together.

4. Once the fabric is fused to the onesie, use the zig-zag stitch on the sewing machine set to very close stitches and sew over the edge of the tie appliquéing it to the onesie. Ta-da! The onesie is finished.
